

Problem Statement: Gym Capacity

Author: Jerico Elli Vergara Arambulo

What is the Problem?

The gyms on campus are over crowded, sweaty, and theres a line for most equipment. Its hard to gauge which hours the gyms would have less traffic and its hardly worth the commute just to turn around.

Who is experiencing the problem?

Students who want on campus provided spaces for working out.

Where does the problem present itself?

Any of the gyms on campus.

Why does it matter?

This matters because many students who want to go to the gym feel discouraged to go because of how the overcrowding of gyms occur.
